

NAME	ABIGAR - Bass Drive
KEY FEATURES	5 adjustment knobs internal voltage converter TRUE BYPASS lightweight construction
OVERVIEW	Drive for bass guitar compatible with 18V bass guitars with large output signal.
FULL DESCRIPTION	<p>The ABIGAR MK-2 is an extremely versatile bass guitar DRIVE from the latest Taurus effects line. The most significant feature of the ABIGAR, imperative for the sound of instruments, is its dynamic "Drive" which still keeps even the most distorted sound of bass guitar in a full range of attack and pulsation. Using the ABIGAR Mk-2 the warm sound of a tube amplifier as well as extreme MODERN- DRIVE is very easily obtainable.</p> <p>Redesigned to better fit your pedalboard with a smaller, lighter build than its predecessors, the Taurus Abigar MK2 is equipped with an incredible range of bass drives. From classic tube to modern tones, its versatility is matched by its level of control, with five adjustment knobs that include bass and treble EQ. Plus, it's compatible with the standard 9-volt DC power supply.</p> <p>Polarity auto-detection - allows using either center-positive or negative polarity on power supply 130Watt</p> <p>DC assistant - protection against signal loss. If disconnected or the voltage is lower than 6V the effect is automatically switched to the "bypass" mode</p> <p>DC converter - Built-in voltage converter which increases the voltage of effect's power supply to 24V. It guarantees a very high sound's dynamic (headroom) and eliminates any problems related to active electronics installed in the guitar</p> <p>TRUE BYPASS - in OFF mode your instrument's original signal goes through, bypasses all electronic components</p>
PARAMETERS	
CATEGORY	BASS EFECT
POWER SUPPLY	9-12 V
TRUE BYPASS	YES
FOOTSWITCH	1
COMPRESSOR	YES
DC ASSISTANT	YES
POLARITY AUTO DETECTION	-
HEIGHT (mm) (in)	65 2,56
WIDTH (mm) (in)	96 3,78
