

Qube-450 silver line

450Watt

**Ultra light and compact “Class-D” head with high efficiency
Switching Mode Power Supply.**

Taurus Qube - 450 bass head is the smallest and the lightest bass amplifier in Taurus's amps line. The compact size of the head was attained by applying the newest, most advanced technology. The SMPS (Switch Mode Power Supply) power supply and Class D power amplifier in conjunction with classic analog pre-amp provide great efficiency, power, dynamic and sound selectivity. As all Taurus amps, the Qube - 450 is very easy to operate. The MLO system equalization control in which the Qube is equipped with, achieves easy and intuitive tailored sound using only bass and treble potentiometers. This sound correction simplifies finding the right tone colour of an instrument.

SPECIFICATIONS:

Power output: 450W RMS / 4ohm , 300W RMS / 8ohm

Inputs: passive & active

Controls:

GAIN control

VOLUME control

Tone:

BASS and **TREBLE** equalizer with "[MLO-system](#)" (Middle-range Level Optimization).

Triple **BASS-switch** to reduce or boost low frequency [**DBS-cut/OFF/DBS-boost**]

Triple **TREBLE-switch** to reduce or boost high frequency [**CUT/OFF/PRESENCE**]

PUNCH button - increases sonic expression. Two different sound modes available **Punch-1** and **Punch-2**

Other features:

MUTE button

CLIP indicator

Protections: short circuit, thermal overload, power overload

Forced cooling system

Casing dimensions: [H x W x D] 66x190x240mm

Overall dimensions: [H x W x D] 66x190x270mm

Weight: 2.6 kg
