

NAME	Qube 450 Bass Amplifier
KEY FEATURES	450 W output power analog preamplifier Class D power amplifier SMPS power supply Active and passive inputs
OVERVIEW	Small and light bass head with 450W power. Easy and user-friendly bass grinder with analog preamplifier and SMPS power supply.
FULL DESCRIPTION	<p>Taurus Qube - 450 bass head is the smallest and the lightest bass amplifier in Taurus' amps line. The compact size of the head is attained by applying the newest, most advanced technology. The SMPS (Switching Mode Power Supply) power supply and Class D power amplifier in conjunction with classic analog preamp provide great efficiency, power, dynamics and sound selectivity.</p> <p>MLO it is unique equalizer for bass guitar designed by Taurus Amp.</p> <p>The MLO (Mid-Level Optimization) system is Taurus' proprietary system, allowing for easy, intuitive and extremely comfortable optimization of the overall sound of the bass guitar.</p> <p>The MLO System provides all-new possibilities. It ensures the most accurate proportion of medium frequencies in accordance with your manual settings of bass and trebles. This very intuitive and logical system supports a musician's choice for the most desirable sound.</p> <p>In addition, the MLO equalizer ensures virtually no change in overall volume while changing the bass frequencies. Unlike most amps, when adjusting bass frequency, the musician notices a change in the sound not the volume.</p> <p>To sum up, the equalisation in the MLO keeps you within the correct range, at the same time allowing you to use the maximum potential of equalization of the bass sound. This is a big advantage compared to a classic solution, where you need to watch certain frequencies carefully to avoid overloading the speakers.</p> <p>CONTROL: GAIN control VOLUME Control BASS & TREBLE Equalizer with "MLO system" (Middle-range Level Optimization) Triple BASS-switch - to reduce or boost low frequency [DBS-cut/OFF/DBS-boost] Triple TREBLE-switch - to reduce or boost high frequency [CUT/OFF/PRESENCE] PUNCH button - increases sonic expression. Two different sound modes available Punch-1 and Punch-2</p>
PARAMETERS	
CATEGORY	BASS AMPLIFIER
POWER OUTPUT	450 W
POWER STAGE EFFICIENCY	-
TUBES	-
SUPPLY VOLTAGE SELECTOR	-
IMPEDANCE	4 / 8 ohm
SPEAKERS IMPEDANCE AUTO DETECTION	-
SERIAL EFFECT LOOP	-
POWER BRAKE	-
LINE OUT	SPEAKERS - COMBO / JACK
AUX	-
FOOT-SWITCH	-
MIX-MODE	-

HEIGHT (mm) (in)	66 2,56
WIDTH (mm) (in)	190 7,48
DEPTH (mm) (in)	270 10,63
HEIGHT (kg) (lbs)	2,6 5,73
WARRANTY	2
MANUFACTURER	<p>Taurus products are designed and hand-made in Poland. Adam Kozakiewicz, the founder of Taurus Amplification, musician, sound engineer and electronics engineer, has been providing the market with the best and fully professional music equipment for 35 years. Manual processing and control, guarantee the best quality and full satisfaction.</p>
