FULL DESCRIPTION	<p>Taurus SERVO-ENHANCER is a professional tool to help you achieve great guitar sound. The device makes the sound very vivid and saturated while it does not interfere with the original guitar sound. The feeling is that you are playing on much higher quality instrument than it originally is.</p> <p>The servo enriches the sound of instrument, adding the qualities which make playing enjoyable and even more importantly, more inspiring. Additionally, it makes the guitar very well set in the overall band mix.</p> <p>No matter what kind of guitar, amplifier, effect loop or speaker you have, servo will always fit perfectly between them, improving sound of the whole signal.</p> <p>Servo was tested on guitars from top tier brands like: Gibson, Ibanez, Fender, Epiphone, Yamaha, ESP and many other, even custom hand-made Druzkowski's Guitars!</p> <p>The SERVO is designed to work with any type of traditional and digital profiling amplifier and preamp. It also performs very well while recording guitar directly to the computer. The unit is extremely easy to use - it is recommended to connect it directly to the guitar as a first component of the entire effects chain. We encourage you to try out our cube ! Hopefully it will become the main tool in the arsenal of your effects, creating your own original guitar sound.</p>
