FULL DESCRIPTION Until today, guitarists could only choose between two types of amplifiers: heads and combos. Now, ware introducing a completely new breed: The Stomp-Head. The Stomp-Head 3.HG is an ultra light, very compact floor amplifier with integrated foot-switch desig to be set on the pedalboard along with effects or placed directly on the stage floor. An amplifier-equipped pedabbaodr porvides a complete ready-to-use sound system. Simply connect a speaker cabinet, guitar and power source, then the system is ready to go. SH3 amplifier can be also placed in a traditional way as a "Head" amp, on the top of the speaker cabinet guitar is an access to two channels (CLEAN and LEAD) chosen by footswitch. CLEAN channel gives a choice of two different sounds: CLEAN or slightly distorted CRUNCH which can be smoothly adjusted by a GAIN potentiometer Two additional foot switchs are assigned to control BOOST and MUTE functions. SH-3.HG is equipped with power selector that allows to set 60Watt or 25Watt in STAGE MODE and 15Watt or 7YWatt in STUDIO MODE. The amp is designed to work with 4, 8, and 16 ohm cabinets (Pow Amp adjust itself automatically to speakers impedance) The Stomp-Head can also be used as a guitar preamp, without connecting speaker cabinet. The LINE OUT (with a Speaker Cabinet Simulation allows connect the amplifier to a mixer or an extern power amp. The Speaker Cabinet Simulation allows connect the amplifier to a mixer or an extern power amp. The Speaker Cabinet Simulation allows the connection of the amplifier to a mixer or an extern power amp. LINE OUT signal simulates the sound of the 4x12 CELESTION Vintage 30 cabinet. Device is also equipped with a serial Effect Loop. UNE OUT with a speaker cabinet simulation allows the connection of the amplifier to a mixer or an external power amp. Line	NAME	Tube Amp Stomp-Head 3 High Gain 60/15Watt
OVERVIEW Small, lightweight 60W analog guitar amplifier with great power. Stomp-head is the answer to the combo or standard head dilemma. It can be used as a guitar preamp without connecting a loudspeak FULL DESCRIPTION Until today, guitarists could only choose between two types of amplifiers: heads and combos. Device is also equipped with a serial Effect Loop. We love them for the fantastic sound, excellent compression, sustain, the sound flexibility and the easiness of playing. We also know that the tube amps are undoubtedly associated with considerable: and weight, thats why our amplifiers are so light. MTD (Master Tube Design) is a hybrid - mix of solid states and tube amp technologies. If You want to read more about our ideas and concepts, visit this site.	FULL DESCRIPTION	The Stomp-Head 3.HG is an ultra light, very compact floor amplifier with integrated foot-switch designed to be set on the pedalboard along with effects or placed directly on the stage floor. An amplifier-equipped pedalboard provides a complete ready-to-use sound system. Simply connect a
15Watt or 7Watt in STUDIO MODE. The amp is designed to work with 4, 8, and 16 ohm cabinets (Pow Amp adjust itself automatically to speakers impedance) The Stomp-Head can also be used as a guitar preamp, without connecting speaker cabinet. The LINE OUT (with a Speaker Cabinet Simulation) allows connect the amplifier to a mixer or an exter power amp. The Speaker Cabinet Simulation imitates sound of the 4 x12 CELESTION Vintage 30 cabine. The amp is also equipped with a serial Effect Loop. LINE OUT with a speaker cabinet simulation allows the connection of the amplifier to a mixer or an external power amp. LINE OUT signal simulates the sound of the 4x12 CELESTION Vintage 30 cabinet. Device is also equipped with a serial effect loop. We love them for the fantastic sound, excellent compression, sustain, the sound flexibility and the easiness of playing. We also know that the tube amps are undoubtedly associated with considerable : and weight, thats why our amplifiers are so light. MTD (Master Tube Design) is a hybrid - mix of solid states and tube amp technologies. If You want to read more about our ideas and concepts, visit this site. What are the benefits of MTD technology? : Great sound in no way inferior to the full tube amps (even better, according to opinion musicians who prefer some particular music styles). In the opinion of musicians our amps much better cooperate with baritone and low tuned guitars tha conventional tube designs. Very long lifespan and stability of tube parameters High accuracy sound parameters High accuracy sound parameters High accuracy sound parameters High		SH3 amplifier can be also placed in a traditional way as a "Head" amp, on the top of the speaker cabinet.
