

<b>NAME</b>	<b>Tube Amp Stomp-Head 1 VT 40Watt</b>
<b>KEY FEATURES</b>	<p>small and light structure  1-channel guitar preamp  possibility of installation in a pedalboard  1 footswitches with boost function  effects loop  40W output power with the possibility of reduction to 20W</p>
<b>OVERVIEW</b>	<p>Small, light, fully analog guitar amplifier with 90W power stage efficiency. Plastic sound, friendly soft compression and large sustain, perfect for lovers of the vintage sound effect. Can be used as a 1-channel preamplifier.</p>
<b>FULL DESCRIPTION</b>	<p>Until today, guitarists could only choose between two forms of amplifiers: heads and combos. Now, we are introducing a completely new breed: The Stomp-Head.</p> <p>The Stomp-Head 1.Vintage is dedicated to supporters of single-purpose amplifiers and prefer a vintage-like type of sound.  It is a pure analog design with an unprecedented lightweight and small size. The amplifier can be placed either on a stage floor just beside the effects, in a traditional way on the top of the speaker cabinet, or set up on a pedalboard.</p> <p>Wherever you go, keep your sound on you!</p> <p>Stomp-Head 1.Vintage (1 footswitch)</p> <p>Technology Master Tube Design  Power output: 40W RMS with a power brake to 20W  Power Stage Efficiency: 90Watt  1 channel  1 foot-switch (BOOST)  Effect loop  LINE OUTPUT with speaker simulation</p> <p>The Stomp-Head 1.VT features a classic, three-point EQ ( BASS, MIDDLE, TREBLE), PRESENCE, GAIN, BOOST, and VOLUME. The amplifier is characterized by a very smooth, warm sound with soft compression and long sustain.</p> <p>The Stomp-Head can also be used as a guitar preamp. LINE OUT with a Speaker Cabinet Simulation permits the player to connect independently the preamps to a mixer or an external power amp. The Speaker Cabinet Simulation imitates the sound of the CELESTION Vintage 30 cabinet. The amp is also equipped with a serial EFFECT LOOP.</p> <p>The amp is based on a MTD (Master Tube Design) technology. It is our own groundbreaking technology that permits us to create powerful guitar amplifiers in very compact shapes. This technology uses all the significant features of tubes that determine the warm, classic sound of guitar amps. We offer players an amplifier with extremely lightweight, very compact dimensions, and powerful sound. The sound characteristics and power of the amplifiers based on our MTD technology are equal to the classic tube amps with the same power rating.</p> <p>To obtain the required parameters, the amplifier is driven by a much higher rated power amp. Even though the power of the amplifier is set at 40Watts RMS, in reality, the real power of the amp is 90 Watts.</p> <p>The SH 1.VT is also equipped with a power selector allowing the player to use the amp in two different power ratings of 40 and 20 Watts RMS. It is also designed to auto-adjust itself to different speaker impedance. The amp handles the speakers with 4, 8, and 16 Ohm of impedance.</p>
<b>PARAMETERS</b>	
<b>CATEGORY</b>	GUITAR TUBE AMPLIFIER
<b>POWER OUTPUT</b>	40 W
<b>POWER STAGE EFFICIENCY</b>	90 W
<b>TUBES</b>	12AX7

<b>SUPPLY VOLTAGE SELECTOR</b>	
<b>IMPEDANCE</b>	4 / 8 / 16 ohm
<b>SPEAKERS IMPEDANCE AUTO DETECTION</b>	YES
<b>SERIAL EFFECT LOOP</b>	YES
<b>POWER BRAKE</b>	UP TO 20 W
<b>LINE OUT</b>	LINE OUTPUT WITH LOUDSPEAKER SIMULATION
<b>AUX</b>	-
<b>FOOT-SWITCH</b>	1
<b>MIX-MODE</b>	-
<b>HEIGHT (mm)   (in)</b>	90   3,54
<b>WIDTH (mm)   (in)</b>	160   6,3
<b>DEPTH (mm)   (in)</b>	190   7,48
<b>HEIGHT (kg)   (lbs)</b>	1,3   2,87
<b>WARRANTY</b>	2
<b>MANUFACTURER</b>	Taurus products are designed and hand-made in Poland. Adam Kozakiewicz, the founder of Taurus Amplification, musician, sound engineer and electronics engineer, has been providing the market with the best and fully professional music equipment for 35 years. Manual processing and control, guarantee the best quality and full satisfaction.
