

NAME	Guitar Tube Amplifier V-2 High Gain 90Watt
KEY FEATURES	compact size analog design based on 12AX7 tubes STAGE / STUDIO job selector Power 90 W
OVERVIEW	The V-2 High Gain amplifier is the equivalent of traditional tube heads with classic sound in a new, smaller form. The efficiency of the 130 W power level will meet the expectations of the biggest fans of powerful sounds.
FULL DESCRIPTION	<p>Taurus V2 High Gain is a guitar head amplifier based on our own groundbreaking technology, which has enabled us to transfer traditional overdriven tube sound into compact size amplifier. The enormous strength and power of sound has remained, while the size and weight of the amp has been decreased. We present to you beloved by all guitarists the equivalent of traditional tube amp in a compact size. The Master Classic is based on Master Tube Design (MTD) analog technology.</p> <p>The guitarist has an access to two channels (CLEAN and LEAD) chosen with manual selector or footswitch. CLEAN channel gives a choice of two different sounds: CLEAN or slightly distorted CRUNCH which can be smoothly adjusted by a GAIN potentiometer Two additional foot switches are assigned to control BOOST and MUTE functions.</p> <p>V2 High Gain is equipped with power selector that allows to set 90Watt or 40Watt in STAGE MODE and 20Watt or 12Watt in STUDIO MODE. The amp is designed to work with 4, 8, and 16 ohm cabinets (Power Amp adjust itself automatically to speakers impedance).</p> <p>The V2 High Gain amp is based on a MTD (Master Tube Design) technology. It is our own groundbreaking technology which permits us to create powerful guitar amplifiers in very compact shapes. This technology uses all the significant features of tubes which determine the warm, classic sound of guitar amps. We offer players an amplifier with extremely light weight, very compact dimensions and powerful sound. The sound characteristics and power of the amplifiers based on our MTD technology are equal to the classic tube amps with the same power rating.</p> <p>CONTROLS: 2 channels - CLEAN and LEAD footswitch inputs CHANNEL [Clean/ Lead], BOOST CHANNELS controls - (CLEAN & LEAD): GAIN, BASS, MIDDLE, MID-RANGE switch, TREBLE, PRESENCE, VOLUME and BOOST shared by both channels Input COMPRESSION boost switch BOOST - immediate access to two different volume levels (activated by manual selector or footswitch) Serial EFFECT LOOP - output Power Output selector - between STAGE / STUDIO</p>
PARAMETERS	
CATEGORY	GUITAR TUBE AMPLIFIER
POWER OUTPUT	90 W
POWER STAGE EFFICIENCY	200 W
TUBES	12AX7
SUPPLY VOLTAGE SELECTOR	230V / 50Hz or 115V / 60 Hz
IMPEDANCE	4 / 8 / 16 ohm
SPEAKERS IMPEDANCE AUTO DETECTION	
SERIAL EFFECT LOOP	YES
POWER BRAKE	-
LINE OUT	-
AUX	-

FOOT-SWITCH	-
MIX-MODE	-
HEIGHT (mm) (in)	195 7,68
WIDTH (mm) (in)	195 7,68
DEPTH (mm) (in)	375 14,76
HEIGHT (kg) (lbs)	4,5 9,92
WARRANTY	2
MANUFACTURER	<p>Taurus products are designed and hand-made in Poland. Adam Kozakiewicz, the founder of Taurus Amplification, musician, sound engineer and electronics engineer, has been providing the market with the best and fully professional music equipment for 35 years. Manual processing and control, guarantee the best quality and full satisfaction.</p>
